Email: Randell1203@gmail.com

Phone: 0950-656-2490

Location: Capas, Tarlac, Philippines

HIGHLIGHTS & STRENGTHS

- Over **6 years of professional experience** in fullstack, cloud, and integration development
- Versatile across frontend, backend, cloud, data integration, and automation
- Adaptable across multiple stacks and always eager to take on new challenges or optimize legacy codebases
- Strong foundation in **Agile methodologies** (Scrum), sprint execution, and cross-functional collaboration
- Experience designing and implementing event-driven architectures to build scalable and responsive systems.

TECHNICAL SKILL

Languages & Frameworks:

-JavaScript (ReactJS, jQuery)
-Python (Flask)
-PHP (Laravel)
-Ruby
-HTML/CSS
-SQL
-NoSQL
-Bootstrap

Tools & Platforms:

-Fivetran
-Retool
-Zoho CRM
-Telerivet
-Stripe
-WebEngage
-Lucidchart,
-Mailtrap

Architectural Patterns:

-Event-driven architecture
-Microservices
-API-led connectivity
-Architecture
-MVC Pattern

Cloud Platforms & DevOps:

- AWS (Lambda, DynamoDB, Aurora, EventBridge, SQS, SAM)
-Azure
-Digital Ocean
-Heroku
-CI/CD Bitbucket
-Docker
-CloudHub
-Mulesoft

Databases:

-PostgreSQL
-MySQL
-CosmosDB
-DynamoDB

WORK EXPERIENCE

InvestEd Philippines - Fullstack Developer

Sep 2024 - Present

Technologies: Python, PostgreSQL, Retool, Fivetran, DBT, Zoho CRM, DigitalOcean

- Build and maintain internal tools on Retool, accelerating operational workflows for customer service and loan processing teams
- Collaborated cross-functionally with QA, product owners, and executives during agile sprint cycles, ensuring timely and accurate delivery of business requirements
- Maintains Python web application used by customers
- Participate in sprint planning and stakeholder collaboration
- Integrated WebEngage to track user activities across the platform and generate behavioral reports for ad targeting and customer engagement
- Created Zoho CRM workflows to automate rule execution, reducing manual workload.

TINA TEC LTD PTY - Freelance Fullstack Developer

Nov 2020 - Jan 2025

Technologies: ReactJS, AWS SAM, Python, Ruby, Stripe, Shopify, BigCommerce

- Architected and implemented AWS SAM-based microservices using Lambda, DynamoDB, EventBridge, and Aurora to power a scalable backend
- Built and maintained multiple ReactJS frontends, including dynamic dashboards and booking portals
- Designed a rules engine for booking systems, enabling business users to configure validation and pricing logic dynamically
- Rewrite the implementation of Stripe payment.
- Successfully migrated AWS infrastructure (Lambda functions, queues, and DB instances etc) between accounts with zero downtime

KMC Solutions - Integration Developer

Mar 2023 - Jun 2024

Technologies: Mulesoft, Azure, AWS, Python, Docker, SQL, Bitbucket

- Designed and deployed Mulesoft APIs for Salesforce integrations
- Built Python-based microservices in Docker for internal use
- Followed event-driven and API-led connectivity patterns
- Automated deployments using Bitbucket pipelines and CI/CD best practices

Shore360 Inc. - Fullstack Developer

Sep 2019 - Apr 2022

Technologies: PHP, JS, HTML, CSS, SQL, AWS, Docker, Bitbucket

- Maintained and developed web platforms for an insurance and warranty company
- Implemented feature enhancements and code fixes from QA reports
- Led code reviews, deployments, and mentored new hires
- Fix code bugs identified by QA testers during testing stage

Shadow Travel and Tours - Junior Web Developer

Feb 2018 - Mar 2019

Technologies: PHP, Laravel, VueJS, HTML, CSS, jQuery, MySQL, RabbitVCS

- Maintained a travel booking system and developed minor enhancements
- Assisted with bug triage and collaborated with end users for request handling
- Worked in a small agile team, regularly communicating backlog status and new feature releases
